

Observations

Observations are a great way of assessing children and helping them to develop to their full potential. They assist in identifying and targeting key developmental goals; as such I will be carrying out observations in line with the six Early Learning Goals (personal, social and emotional, creativity, physical, language and literacy and knowledge and understanding). In order for me to make these observations I require parents permission and would appreciate it if you could sign the permission slip below.

At all times confidentiality will be respected and observations will not be shared with any relevant outside agencies, such as Health Visitors, unless a key area of concern is highlighted by the observations. Parents will be free at all times to both view and discuss with me the relevance of each observation, and copies will be provided if requested, co operation and communication will insure the high standard of care Little gems aims to achieve is met at all times.

I (Name of parent)

Give permission for staff at 'Little Gems' to make observations on my child,
.....(Name of child).
